## FRONT END ENGINEER

Results-driven Front End Engineer. Skilled in React.js, Javascript and TailwindCSS.

### *Work Experience*

---

Codezyng private ltd

**Intern Software Engineer | Jan 2024- May 2024,**

**Software Engineer | June 2024-March 2025**

- Built responsive, high-performance interfaces using React, Javascript, TailwindCSS, and Next.js to deliver fast, smooth user experiences.
- Developed reusable, scalable UI components with TailwindCSS and Material UI (MUI), improving consistency and reducing development effort.
- Implemented state management with useContext, Redux Toolkit.
- Improved overall development speed by integrating AI-enhanced development tools.
- Optimized frontend performance through lazy loading and targeted render optimizations.
- Collaborated closely with backend teams to integrate RESTful APIs and ensure cohesive, reliable user flows.
- Utilized Next.js features to improve usability, crawlability, and overall SEO.
- Maintained high code quality through clean coding standards, ESLint, Prettier, Git workflows, and component-driven architecture.

### *Personal Project*

---

**Generic SaaS Landing Page**- A Generic Landing Page For a SaaS company. Converting design to code

**Cloud Resume Challenge** - A project to build a resume website hosted on AWS, showcasing cloud and Animation skills.

**Project z** - A simple and secure digital diary app to capture your thoughts, memories, and daily reflections.
